

HAI / FAA Safety Team presents:

Training Safety or Training Safely Course at HELI-EXPO 2013

Training Safety is using training tools to develop a “safe attitude” in pilots, be they students, commercial pilots or instructors. It is the PIC’s responsibility to use all available tools for assessing the risks, execute the flight and return everybody in a safe and relaxed manner.

Training Safety is the idea that both instructor (or examiner) and student pilot have a stake in safely conducting the flight. The course, led by members of the International Helicopter Safety Team (IHST) Joint Helicopter Safety Implementation Team (JHSIT) Training Working Group, will discuss and develop this theme. Registration is not required for this course. HOWEVER, if you wish to receive FAA WINGS Program credit you MUST register in advance of the course on the FAASafety.gov web site.

This course is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2013. Safety Challenge course are FREE to all HELI-EXPO 2013 attendees. Courses are offered in 4 different safety tracks: Flight Operations, Maintenance/Technical Issues, Safety Culture/Leadership and Safety Management.
